Unit 2—Lesson 8
Displaying Data

Use Interface Builder to create the beginnings of an app, called Hello, that you can use to introduce yourself.

Plan out the content for the app, and begin to build it by adding labels and a profile image.

Unit 2—Lesson 8
Tutorial Screen

1. Create a view-based app
2. Add images to the project
3. Set up the image views
4. Set up the labels
